## 63 Buses Ready To Roll

The routes and their general locations are:

Route 1 — South County, Lantana, Hypoluxo, Boynton Beach, Delray Beach, Boca Raton via U.S. 1 and Seacrest Boulevard.

Route 1 — Central County, Riviera Beach, North Palm Beach, Lake Park, West Palm Beach, Lake Worth and Lantana via U.S. 1.

Route 1N, 1T, 1J, 1P — Serving North County, Tequesta, Jupiter, Palm Beach Gardens.

Route 2 — West Palm Beach via Lake Worth and West Palm Beach.

Route 3 — Lake Worth-West Palm Beach-Riviera Beach-Singer Island.

Route 4 — Crosstown-West Palm Beach to downtown.

Route 5 — West Palm Beach-Palm Beach crosstown.

Route 5 — West Palm Beach-Palm Beach Shuttle to downtown.

Route 6 — Crosstown Lake Worth.

Route 7 — Delray Beach, North, South and Crosstown.

Routes 8, 12 and 14 — Boca Raton.

Route 9 — Boynton Crosstown.

Route 10 and 11 — Belle Glade and cross county to West Palm Beach.

Route 20 — Lake Worth-West Palm Beach via Military Trail.

Today's the day Cotran, Palm Beach County's improved transit system, goes into full operation on all 20 routes.

For the first time, all 40 of the recently purchased air-conditioned buses as well as 23 of the larger, late model coaches will be in service as the county inaugurates its program of full accessibility for the handicapped and elderly.

In order to get residents better acquainted with the new program, the county will provide free rides anywhere in the system today and tomorrow.

The 40 new buses provide space for one wheelchair, while the 23 retrofitted coaches can serve two wheelchair passengers.

Cost of the 40 new buses is \$3.1 million with 80 percent financing from federal funds and 10 percent each from the state and county.

The 31-passenger buses operate on diesel fuel and are economical, highly maneuverable heavy-duty coaches with roomy seats, large window areas and excellent lighting and ventilation.

The improvement program is expected to make the county's bus system one of the best in the nation.

All 63 buses will operate on the 20 routes that cover Palm Beach County from Boca Raton to the south, Tequesta to the north and west into the Glades.

New schedules offering better service are now available from all bus drivers.

## I-95 Missing Link: 12/19/1987

**I-95 now goes the extra miles, cheaper and faster**

By HAROLD MAASS  
Palm Beach Post Staff Writer

Arthur LeBeau was towing 7,000 gallons of liquid nitrogen.

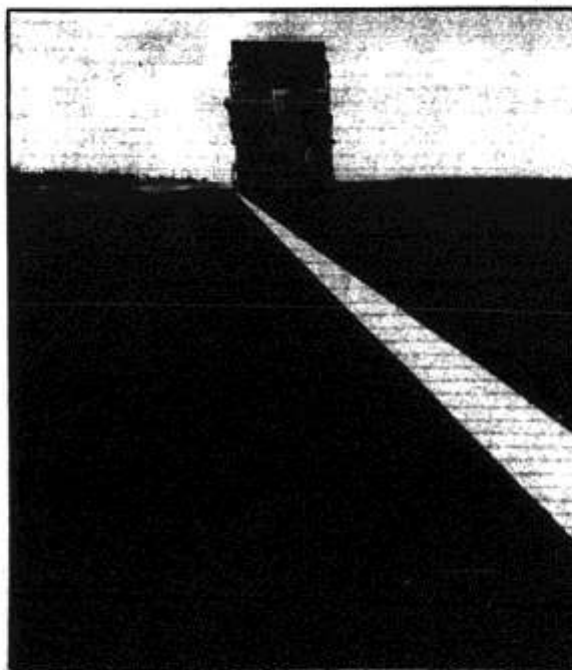

"I kind of like to avoid traffic," the diminutive Union Carbide trucker said.

Today's opening of Florida's last unfinished leg of Interstate 95 will allow him and his chemical cargo to do just that, he said as he poked a screwdriver the size of his forearm under the hood of his 18-wheel tanker.

LeBeau and most of the dozen other truckers jam-packed in the McDonald's parking lot on State Road 70 in Fort Pierce had stopped Friday before or after lumbering along Florida's Turnpike to bypass the unopened stretch of I-95.

When he returns to Titusville from South Miami tonight, LeBeau will avoid the road switch and congested SR 70 and take the completed freeway all the way, saving his company \$6.90 in turnpike tolls.

The opening of I-95's so-called

## Tri-Rail Starts: 1/9/1989

### All aboard! Tri-Rail rolls today

By AMY DRISCOLL  
Palm Beach Post Staff Writer

When the 67-mile Tri-Rail system opens today — the first regional commuter train network ever to run in South Florida — planners of the \$112 million experiment are betting they will have a winner on their hands.

"We've covered every possible contingency," said Tri-Rail executive director Bill Howard. "This day has been literally years in the planning."

Although the line initially was designed to serve as a temporary alternative for commuters during

|-------------------------|-----|
| ✓ History of Tri-Rail   | 10A |
| ✓ Don't give up quickly | 1F  |

the three years when Interstate 95 was to be widened, planners hope it will become a permanent mass transit system.

The West Palm Beach-to-Miami system will run trains only during morning and evening rush hours on weekdays. No weekend or midday service is planned.

Between 5:15 a.m. and 9:13 a.m., five trains will run south, and four will run north. Between 3:50 p.m. and 8:45 p.m., four trains will

run south, and five will run north.

Twelve of the 15 planned stations will be open during the first few months of operation. The remaining three — at Northwest 22nd Avenue in Boynton Beach, Cypress Creek Road in Fort Lauderdale and Griffin Road south of Fort Lauderdale-Hollywood International Airport — are expected to open in the spring.

No fares will be charged for riding the train until May 1, when a one-way trip of any length will cost \$2. Weekly passes for unlimited

### Final flyover from I-95 to PBIA to open Wednesday

**Cost:** \$200 million, quadruple the original estimate

**Time it took to build:** Slightly more than four years

**How it works:** A diagram of how to get on and off, 8A

By CHUCK MCGINNESS  
Palm Beach Post Staff Writer

**WEST PALM BEACH** — After more than four years of annoying traffic snarls, mind-numbing pile-driving and overnight shutdowns of Interstate 95, Palm Beach County's largest-ever road construction project is coming to a close.

The last major road work at the new Palm Beach International Airport interchange will be completed tonight. By the time commuters hit the highway for the Wednesday morning rush hour, southbound traffic will cruise on fresh asphalt and the southbound exit at Belvedere Road will be reopened.

A lot has happened since the first shovel of dirt was turned:
