EXECUTIVE SUMMARY

The Transportation Improvement Program (TIP) is a staged program encompassing a five-year period consisting of all regionally significant transportation improvements to all modes of travel in Palm Beach County. The TIP is developed through a continuous, cooperative and comprehensive effort involving the Florida Department of Transportation (FDOT), the Board of County Commissioners, the Port of Palm Beach, South Florida Regional Transportation Authority and municipalities within the County. Consultation is also carried out with the Miami-Dade TPO and Broward MPO during the TIP process. The document complies with the requirements set forth in Section 134 of Title 23, USC and 23 CFR 450.324.

The TIP identifies transportation improvements funded by Federal, State and local sources in order to assist local governments within the Palm Beach MPO area with their transportation planning efforts. The TIP is based on the FDOT's FY 18-22 Work Program for Palm Beach County, and generally moves forward the projects in the time frame from previous TIPs. Please note that the identified projects may experience unforeseen changes and that the DOT work program and the TIP may be amended throughout the year to accommodate this.

To provide for continuity and ease of use, the projects contained in the TIP have been aggregated by type and listed in sections. The TIP provides funding for the following project types:

	PROJECT TYPE	FUNDING	% OF TOTAL
1.	SIS Capacity	\$ 976,084,757	30.6%
2.	Major MPO Projects	\$ 207,245,643	6.5%

Time Frame

This document includes a five-year implementation schedule for Fiscal Year 2018 through Fiscal Year 2022 following the federal fiscal calendar which begins on October 1st and ends on September 30th (i.e. Fiscal Year 2018 addresses the dates of October 1, 2017 to September 30, 2018). However, projects utilizing state funds are based on a fiscal year beginning July 1st and ending June 30th.

Certification Review

The Palm Beach MPO undergoes a certification review process annually with FDOT and a quadrennial review with Federal Highway Administration (FHWA) and Federal Transit Administration (FTA). The certification review process ensures the MPO is carrying out the metropolitan planning process in adherence with federal and state regulations. The last joint FHWA and FTA Certification Review was completed on October 30, 2015. The last Joint State/MPO Certification Review was completed on July 7, 2016.

Prioritization of Projects

In order to be included in the TIP, a project must be consistent with the MPO adopted long-range transportation plan (LRTP). The adopted LRTP was prepared using estimates of available revenues and project and program costs and is presumed to be cost feasible. The LRTP is referenced in local comprehensive plans and seeks consistency with these plans to the maximum extent feasible. The MPO adopted a list of Priority Projects from the LRTP in September and transmitted them to FDOT for use in preparing the tentative Work Program – these are included in Appendix C and highlighted in the summary of projects section. FDOT then developed the Draft Tentative Work Program and provided the schedule of projects for creation of the TIP. Major projects are screened through the State's Efficient Transportation Decision Making (ETDM) review process. This review provides for an early examination of the projects, allowing for timely and effective decision making and early National Environmental Policy Act (NEPA) reviews and approvals.

Congestion Management Process and Evaluation

Projects and system-wide effectiveness for all modes of transportation are evaluated through the Congestion Management Process (CMP). A CMP is a systematic and regionally-accepted approach for managing congestion that provides accurate, up-todate information on transportation system performance and assesses alternative strategies for congestion management that meet MPO needs.

Transportation Disadvantaged

Transportation Disadvantaged (TD) services are provided for people who, because of physical or mental disability, income status or age, are unable to transport themselves or to purchase transportation and are, therefore, dependent upon others for transportation as defined in Florida Statutes 411.202. The Transportation Disadvantaged Service Plan (TDSP) serves as a comprehensive operational guidebook outlining the services and service parameters that govern public transportation in Palm Beach County, Florida. The MPO works closely with Palm Tran to update the Transportation Disadvantaged Service Plan (TDSP) when new or enhanced policies, rules and procedures are adopted. A copy of the TDSP can be found on the MPO website at: http://www.palmbeachmpo.org/LCB

Project Sections in the TIP

The projects in this document are presented in major categories that are explained in greater detail below.

SIS Capacity Strategic Intermodal System projects are prioritized by FDOT to support regional mobility.

Major MPO Projects The MPO Board annually prioritizes major highway, transit and freight projects from the Cost Feasible Plan based on the Goals, Objectives and Values in the LRTP and the Congestion Management Process (CMP).

Local Initiative Program Lower cost, non-regionally significant projects submitted to the MPO annually by local agencies and prioritized using a project scoring system based on the Goals, Objectives and Values in the LRTP.

Transportation Alternatives Program Active transportation projects submitted to the MPO annually by local agencies and prioritized through the Bicycle Trailways Pedestrian Advisory Committee (BTPAC).

Shared-Use Nonmotorized (SUN) Trail Network Local governments may submit projects annually to the MPO for prioritization to seek state funding for project implementation. Projects must be paved non-motorized trails on the priority network established by the Florida Office of Greenways and Trails (OGT).

Other FDOT and Local Projects These projects are advanced by agencies other than the MPO with outside discretionary funding sources (e.g. local gas taxes, local impact fees, county incentive grant funds, highway safety program funds, etc.).

Major Maintenance Projects proposed by the maintaining agencies based on the condition of the transportation infrastructure. These are larger projects representing an opportunity to enhance existing facilities through scope modifications or additions.

O&M - **Roadways** Operations and maintenance projects proposed by the maintaining agencies based on the condition of the transportation infrastructure and the need to operate it efficiently.

O&M – **Transit** Projects proposed by the transit agencies to continue to operate existing services.

Airports, Railroads and Seaport Projects identified by facility owner/operators consistent with their respective master plans.

Summary of Projects

The following tables highlight the status of MPO Priority Projects, projects scheduled for construction in FY 2018, and some of the more significant changes between the adopted FY 17-21 TIP and the FY 18-22 TIP. A typical project includes a Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) phase.

Public Participation Process

The Draft FY 2018-2022 TIP was presented as an information item to the MPO Board on May 18, 2017. The Palm Beach MPO adopted the FY 2018-2022 TIP at a public meeting of the MPO Board on <u>June 15, 2017</u>. The following opportunities for public review and comment were offered for more than 30 days prior to the public meeting:

Website - The Draft FY 2018-2022 TIP document in PDF form, Notice of the Public Meeting and an online public comment are posted to <u>www.PalmBeachMPO.org</u>. The website also provides information on all of the ways to review the draft TIP and offer public comments.

Newspaper advertising – Provides notice of the Public Meeting and information of the various opportunities for viewing the Draft TIP, asking questions and offering public comment.

Palm Beach Post – Display ads published in the main section on 5/14/17. Spanish language ads were published in the free weekly editions of el Latino Semanal on 5/19/17.

MPO Office, 18 Palm Beach County libraries & 11 Municipal Libraries – Distribute a printed notice with instructions to access the online Draft FY 2018-2022 TIP document for public review and comment.

MPO Committees - The Draft TIP is reviewed for approval by the MPO's Technical Advisory Committee (TAC), Citizens Advisory Committee (CAC) and Bicycle Trailways Pedestrian Advisory Committee (BTPAC). The TAC is comprised of planning and engineering staff from municipal, county and state agencies and organizations to provide input on the technical aspects of the program. The CAC is comprised of representatives from the community with interests in transportation and planning in accordance with the requirements of TEA-21 and Chapter 339.175, F.S., to provide a citizen viewpoint on transportation projects and impacts. The BTPAC is comprised of representatives from the community with interests in active transportation.

MPO Board meeting – Public comments were heard at the publicly noticed MPO Board meetings during the initial information draft on May 18, 2017 and the final adoption on June 15, 2017.

Funding

A typical project includes a Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) phase. Costs on the TIP pages will have historical costs, five years of the current TIP and projected future costs to complete the project consistent with the LRTP Cost Feasible Plan. For some ongoing programs, such as resurfacing, safety or operational projects, there may not be a total cost provided but rather additional details on that program.

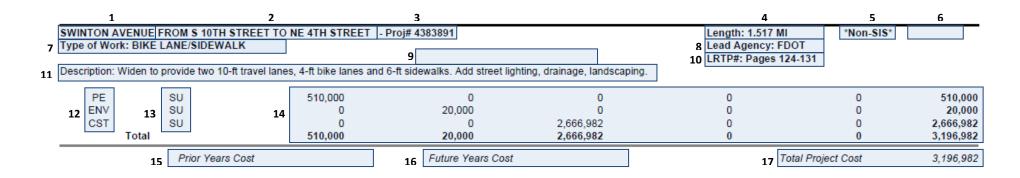

The TIP is financially constrained for each year. Federally funded projects identified in the TIP can be implemented using current proposed revenue sources based on the FDOT Tentative Work Program and locally dedicated transportation revenues. All Projects funded by FDOT with federal or non-federal dollars are included in a balanced 36-month forecast of cash and expenditures and a five-year finance plan supporting the FDOT Work Program. All local government projects (non-federally funded) that are included in the TIP are part of member local government's capital improvement programs. The following table provides a summary of federal, state and local funding codes as well as the dollar amounts allocated to projects within each funding code by fiscal year. Note that all project costs are shown in year of expenditure dollars, meaning the costs reflect the adjusted value of the work at the time the funds will be expended on the project.

Understanding the TIP

The following informational guide assists the reader in understanding the layout and content of the TIP report.

- 1. Project Name.
- 2. Project Limits or Description.
- 3. FDOT Financial Management Number.
- 4. Length of the project in miles.
- 5. Identifies whether the project is part of the Strategic Intermodal System.
- 6. Identifies whether the project is a Regionally Significant Project.
- 7. Shows the Type of Work accomplished by the project.
- 8. Lead agency for the project.
- 9. The number of existing lanes, the number of lanes to be improved and the number of lanes to be added by the project.
- 10. Identifies how the project is referenced in the Long Range Transportation Plan (LRTP).
- 11. Provides any explanatory description or notes for the project.
- 12. Phase of the project.
- 13. Funding source. See Fund Summary for descriptions.
- 14. Programmed cost estimates for each fiscal year.
- 15. Funds already encumbered/expended for the project in previous years.
- 16. Funds expected to be necessary for the project in future years beyond the five-year period addressed in the TIP.
- 17. Total project cost including prior years, the current TIP and future years.
