# DRAFT TENTATIVE WORK PROGRAM

---

## FY 2020-2024

PREPARED BY PALM BEACH TPA  
DECEMBER 2018

[PalmBeachTPA.org/TIP](http://PalmBeachTPA.org/TIP)

## EXECUTIVE SUMMARY

Pursuant to 23 C.F.R. § 450.324, one of the primary roles of the Palm Beach TPA is the adoption of the Transportation Improvement Program (TIP), a five-year program allocating anticipated revenues to transportation improvements to all modes of travel in Palm Beach County. The TIP identifies transportation improvements funded by Federal, State and local sources in order to assist local governments within the Palm Beach TPA area with their transportation planning efforts. In Florida, the TIP is based on and reflects the Florida Department of Transportation's (FDOT) Work Program for Palm Beach County for the same time period.

Pursuant to § 339.175(8), Fla. Stat. (2014), the TPA must adopt an updated TIP annually. The TIP for FY 19-23 was adopted on June 21, 2018 and the TIP for FY 20-24 will be considered in May/June 2019. Prior to that, FDOT works to develop a draft tentative work program for FY 20-24 that continues to advance projects in the previous adopted work program and allocates funding, to the maximum extent feasible, to the annually adopted project priorities of the Palm Beach TPA which were submitted to FDOT on September 20, 2018.

§ 339.135(4)(d), Fla. Stat. (2014) stipulates that each district office shall make a presentation at a meeting of each metropolitan planning organization in the district to:

1. Hear requests for new projects to be added to the district work program.
  - The status of TPA priority projects table seeks to facilitate this discussion.
2. Hear requests for existing projects to be deleted from the district work program.
  - The FY 2020 construction projects seeks to facilitate this discussion.
3. Determine the necessity of making any changes to projects included or to be included in the district work program.
  - § 339.135(3)(c)(3), Fla. Stat. (2014) further stipulates that the district shall provide written justification for any project proposed to be rescheduled or deleted from the district work program which project is part of the metropolitan planning organization's transportation improvement program and is contained in the last 4 years of the previous adopted work program.

To facilitate the review of these complex documents according to these purposes, the following summary tables have been created:

1. TPA Priority Projects
2. Local Initiatives Program Projects
3. Transportation Alternatives Projects
4. SUN Trail Projects
5. Other FY 2019 Construction Projects
6. Significant Changes (other projects not referenced in the above tables)
