

1

A slide with a blue header bar on the left side containing a white graphic of three horizontal lines with a vertical line intersecting them. The text "Motion to Recommend to the TPA Board" is written in white on the blue background. Below the header, the slide has a white background with a black border. It contains a bulleted list of five items, with the first two being main points and the last three being sub-points under the second main point.

- Include a five-minute presentation by Michael Fitzpatrick on an upcoming agenda
- Direct TPA staff to summarize how clean energy initiatives are currently integrated into the planning process and other opportunities for improvement, including staff consideration of:
  1. Tasking the Technical Advisory Committee (TAC) to perform an in-depth review of the coming disruptive switch from ICE to BEV light duty vehicles and make recommendations as needed.
  2. Form a subcommittee headed by Governing Board members and composed of representatives from agency staff, TAC and CAC to consider the TPA's future direction regarding Global Warming.
  3. Make an inter-agency request to the Florida Department of Highway Safety and Motor Vehicles that an accessible report be maintained categorizing PBC vehicle registrations by make, model and propulsion type.
  4. Encourage Governing Board Members in their elected roles to reactivate the initiative to establish an accurate accounting of the amount of greenhouse gas pollution generated by PBC.

2

## Proposed Motion Language Handout

The CAC is advising the PBC TPA Governing Board that extrapolations of formulas provided by the US EPA strongly indicate the over 1 million automobiles and light vehicles registered in PBC are producing over 5 million tons annually of the greenhouse gas carbon dioxide (CO<sub>2</sub>).

The CAC is recommending the Governing Board task the Technical Advisory Committee (TAC) with researching this issue to determine if addressing this issue is in the purview of the TPA, and if so, develop initial recommendations for mitigation.

3

## Motion (Bruner/Fitzpatrick)

1. Formally file the report and provide to Board and TAC
2. TPA staff and/or TAC to review the report and provide summary of how it fits into the current Mission and Policies
3. TPA staff and/or TAC to review additional opportunities to fit into the current Mission and Policies
