Project Overview

The Regional Greenways & Trails project is intended to identify & organize a range of regional facilities for non-motorized users, including:

- Greenway corridors
- Pedestrian trails (both on- and off-road)
- Bicycle trails (both on- and off-road)
- Equestrian trails
What qualifies a facility as “regional”?

A facility that meets one or more of the following criteria:

- Multi-County Facility
- Connects to Regional Park or Preserve
- Connects to State/Federal Preserve or Park
- Connects to regionally-significant educational, cultural or historic facility
- Connects to downtown or CBD
- Connects to premium transit hub or stop {examples include commuter rail (e.g., Tri-Rail); heavy rail (e.g., MetroRail); busway (e.g., Miami Busway); light rail}
Facility Types & Standards

Hiking Trail – Unpaved (5’ minimum width)
Facility Types & Standards

Multi-Use Trail – Unpaved (*10’ minimum width*)

- Historic Jupiter to Indiantown Trail
- Bluegill Trail
