functionality through ADA projects and transportation alternatives projects like this one.
We Propose...

The construction of a Wayfinding System that includes kiosks with maps at major intersections, guide signs at minor intersections, and shelters with pedestrian and bicyclist amenities.

No Easement acquisition required
- Entire project is contained within Village of Royal Palm Beach Right of Way and Fee Simple Land.
Main Benefits

• Promote safe, alternative transportation by making the Pedestrian Pathway Network easier to use.
  • Maps and guide signs will help direct residents and visitors.
  • Amenities and shelters will make using the network more convenient.
• Encourage use through awareness.
  • Kiosks will be placed at major intersections and points of interest so that they will have high exposure to the public.
  • Residents will be able to easily learn and plan to use non-motorized routes to points of interest.

This project already has community support.
Community Support

Included in our application are Letters of Support from:

1. Principal Armis
   Royal Palm Beach High School
2. Principal Nance
   Crestwood Middle School
3. Principal Makowski
   H.L. Johnson Elementary School
4. Section Manager Diane Smith
   Palm Beach Sheriff’s Office
5. John Riordan
   Village of Royal Palm Beach Recreational Advisory Board President
Conclusion

The Village of Royal Palm Beach respectfully requests consideration of our 2019 Application to the Transportation Alternatives Program for the Pedestrian Pathway Wayfinding Project.

- The Total Construction Cost is estimated to be around $810k.

Thank you for your time and consideration!
