

Pedestrian & Bicycle Quarterly Fatal Crash Analysis

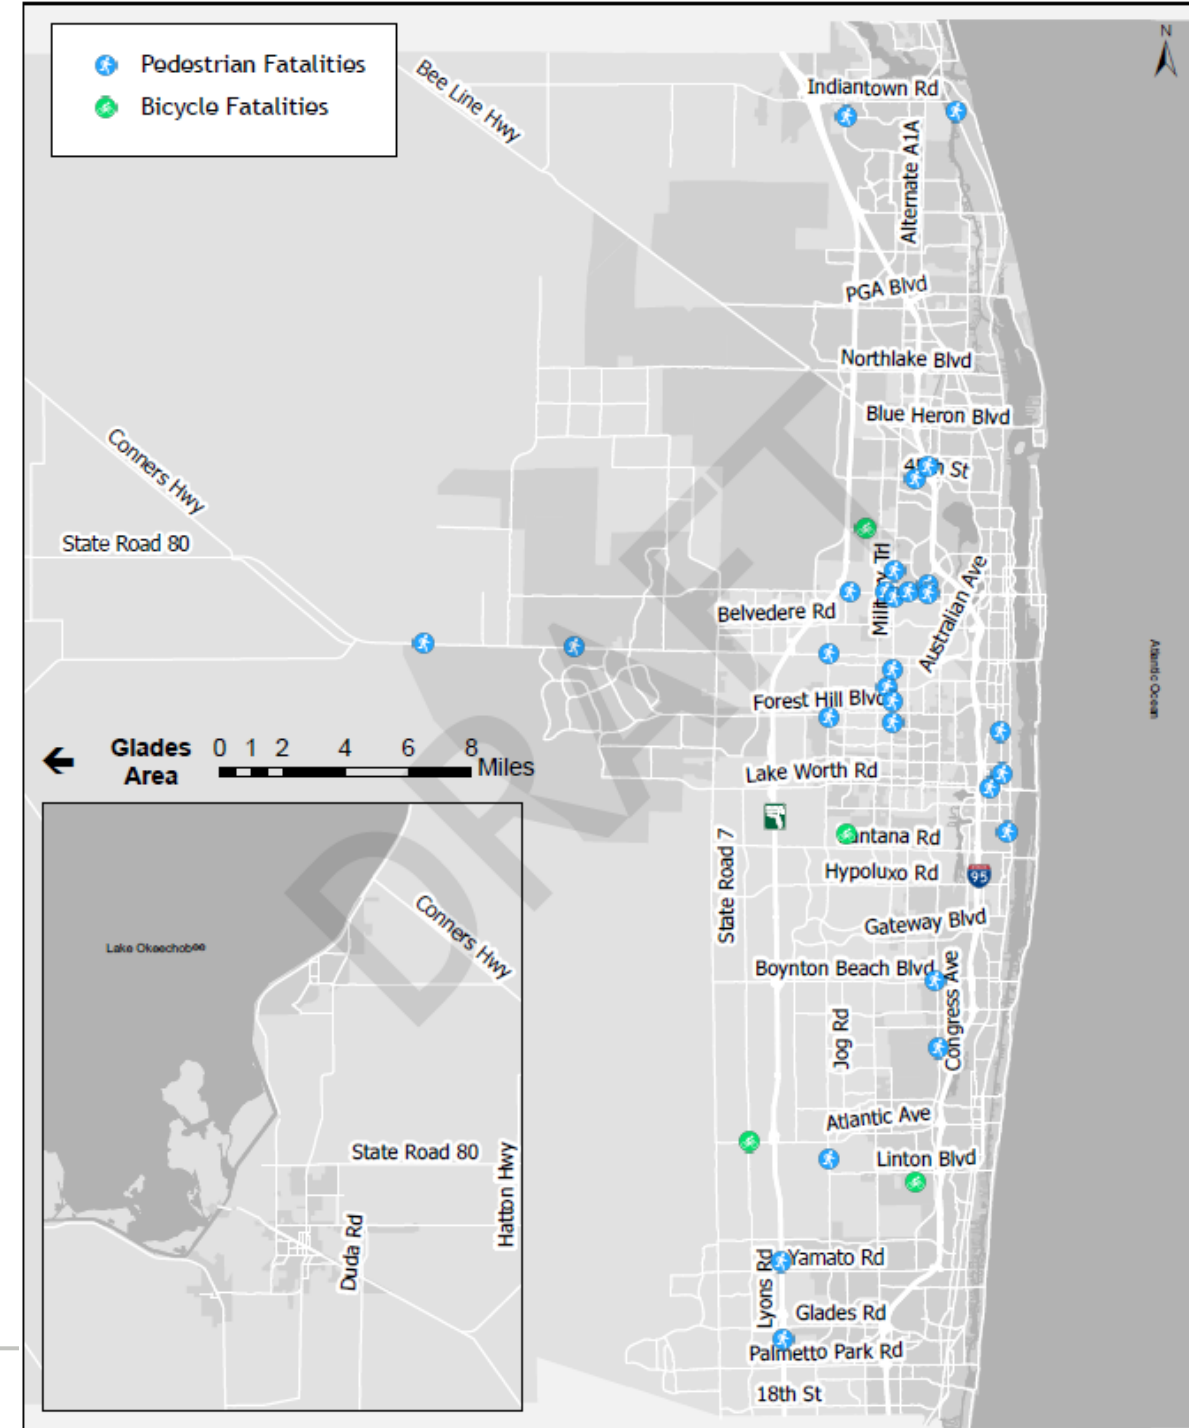

January 2021 - June 2021

Why Quarterly Reviews of Ped/Bike Fatalities?

- Implement TPA Board Direction
- Focus on Ped/Bike crashes because they represent a disproportionate percentage (27%) of total fatalities
- Promote discussion and urgency
- Reveal trends and high-impact countermeasures

Summary (Jan 1-Jun 30)

- 4 fatal bicycle crashes
- 29 fatal pedestrian crashes
- Clusters on arterials with abundant pedestrian activity
- 3 occurred on January 1 after midnight
- 25 occurred at dark
 - 16 locations identified as lighted but lighting may not be adequate for pedestrians

Next Steps

- Incorporate feedback from committees and stakeholders
- Refine review process
- Continue to build and refine countermeasures
- Work with stakeholders to implement refined countermeasures
