

# Palm Beach Complete Streets Design Guidelines: Outline

## Section 1: Introduction

1. Complete Streets Background
  - a. What are Complete Streets
    - i. Complete Streets Movement
    - ii. Benefits of Complete Streets: Safety, Public Health, Environment, Local Economy
  - b. Palm Beach MPO
    - i. Complete Streets Policy
    - ii. Complete Streets Working Group
2. Existing Design Guidance
  - a. Street design criteria and guidelines
  - b. Agency Coordination
  - c. Other Resources
    - i. Access to Transit
    - ii. Transportation Planning and Health
    - iii. Aging in Place
3. Purpose of Design Guidelines
  - a. Context sensitive design framework
  - b. Local guidance on integration of roadway and land use context
  - c. Multimodal safety and mobility emphasis
4. How to Use
  - a. Overview of Design Guidelines
  - b. Frequently used topics

## Section 2: Best Practices

1. Introduction
2. Review of Examples:
  - a. Chicago
  - b. Boston
  - c. Nashville
  - d. Philadelphia

## Section 3: Multi-modal Street Typology Framework

1. Introduction and Framework: Street Form and Function
2. Street Types Definitions, Maps, Photographs
  - a. Limited Access facilities
  - b. Major Corridors
  - c. Main Connectors
  - d. Community Connectors
  - e. Neighborhood Streets
3. Land Use Context Definitions, Maps, Photographs
  - a. Urban Core
  - b. Urban General
  - c. Suburban
  - d. Rural Town
  - e. Rural
  - f. Natural

## Section 4: Blended Approach and Design Guidance

1. Introduction: Street fundamentals and cross section elements
2. Design Trees and Typology Tables
  - a. Organized by street type with corresponding land uses
3. Design Guidance
  - a. Pedestrian Realm/ Streetside
  - b. Vehicular/Roadway
  - c. Intersection Design
4. Typical Sections

## Section 5: Implementation and Actions

1. Implementation and Adoption
  - a. Complete Streets Opportunities Map
  - b. Protected Bicycle Lane Network
  - c. Regulatory changes and requirements
  - d. Impact of other plans
2. Next Steps and Actions
  - a. Flexibility of typologies
  - b. Measuring Success
