Purpose:

The Florida Department of Transportation (FDOT) is holding this Alternatives Public Workshop to update the community on the Project Development & Environment (PD&E) Study for the I-95 at State Road 804/Boynton Beach Boulevard and I-95 at Gateway Boulevard interchange projects.

The purpose of the project is to enhance overall traffic operations and improve the Level of Service (LOS) at the existing interchanges to accommodate projected travel demand. The PD&E Study will also consider Strategic Intermodal System (SIS) connector improvements needed within the project area and will be consistent with plans for I-95, including the potential extension of express lanes through Palm Beach County.

The PD&E Study began in May 2015 and is expected to be completed in June 2017.

The workshop will begin as an open house at 5:30 p.m. Project diagrams and plans will be on display and staff will be available to answer questions and discuss the project one-on-one. A formal presentation will be made at 6 p.m. followed by a public comment period and additional Q&A.
