

WHAT IS TSM&O?

Transportation Systems Management and Operations, known as TSM&O, uses **proven traffic management strategies** and **technologies** to improve the **safety** and **people-moving capacity** of southeast Florida's transportation system.

WHY TSM&O?

Limited right-of-way and high construction costs make it challenging for major cities to build their way out of congestion. **TSM&O addresses these challenges** with **multi-modal strategies** that **actively manage traffic to reduce delays**. It enhances traffic operations to **improve travel conditions** and reduce the need for major roadway construction projects.

Simply put, TSM&O **provides smarter and cost-effective transportation solutions** that keep southeast Florida moving!

TSM&O STRATEGIES

- > Traffic Signal Coordination
- > Transit Management
- > Freight Management
- > Traffic Incident Management
- > Traveler Information
- > Connected and Automated Vehicle Applications
